Novatech®

Available as Special Order

Simplicity at Its Best

Simple and efficient, the Studio aluminum patio door exceeds industry standards for performance. Ideal for high-rise projects, this door is built to withstand the harsh weather and wind loads at the top. Essentially, Studio is a flexible aluminum patio door system, tailored for architectural applications with extensive customization options such as color, sill finishes, glass, hardware, and more.

Specifications

Materials:

All aluminum door utilizing pour-and-debridge dual thermal break technology and double-seal weatherstripping.

The panel lifts 5/16" (8 mm) when the door is unlocked.

Pivot the handle to release the three-point locking mechanism and raise the Loft door onto its wheels. The large panel weighing up to 300 lb | 136 kg glides quietly and effortlessly, using just one hand.

Loft

Think Bigger! | Lift & Slide Patio Door

For new construction and renovation projects alike, improve your view and let more light in thanks to the Loft door's oversized glass panels. Its lift & slide mechanism makes it possible to build sizable patio doors using only two panels, for an impressive and uncluttered view.

Effortless Opening & Closing

Tandem wheels and the available lift & slide mechanism make sliding oversized panels frictionless. Each detail was designed to make the panels light and their opening and closing simple and enjoyable.

Better Thermal Performance

Composite thermal barriers and an innovative sealing system are brought together to offer the highest performance ratings in their categories.

Aluminum's Undeniable Durability

Aluminum's resistance to heat, cold and corrosion, as well as its superior durability make it the best choice for a long-lasting, sturdy, maintenance-free product, especially for dark painted doors.

Enhanced Security

Loft doors are engineered to withstand wind loads and the toughest climates. Built with standard multi-point locking mechanisms, these doors will give you the peace of mind you deserve.

Garden Patio Door Collection

Double-hinged Garden Patio Doors , left hand outswing, Clear Glass, pre-finished in Warm White. Sill is mill finished. Schlage Georgian lockset in Satin Nickel.

Garden Patio Doors

Madero Garden Patio Doors offer three select choices for your new construction or renovation project. All types are offered in a variety of sizes to fit your project.

Single-Hinged Garden Patio Doors One Door Active | One Door Fixed

Ideal for accommodating multiple doors – creating a spectacular view.

One door is fixed while the other opens as an active door. Fixed doors offer a full lite sidelite, allowing additional sunlight to fill your room and provide a full view of the outdoors. Additional fixed panels can be added, to a maximum of four, including any active panels.

Shown as LH Inswing

Double-Hinged Garden Patio Doors One Door Active | One Door Inactive

Full clearance double door system – provides the beauty of a garden patio door with full access to the outdoors.

Complete with a multi-point astragal, this product allows the inactive door to be securely locked and sealed or active as required. Active door must be double drilled.

Shown as RH Outswing

Garden Venting Patio Doors One Door Active | One Door Venting

Designed to provide easy access to outdoor living spaces – as well as ventilation and natural light.

These garden doors features the active door as a typical swing door with optional sash lock for added security and thermal seal. Specify single or double drilling. The venting door is complete with standard screen, roto hardware, and sash locks with tie back for ease of use and to allow children to operate the active door.

Available as 6/8 Outswing only

Shown as LH Outswing

Single hinged, left handed outswing Garden Patio Doors painted Black with fixed panels installed with Clear glass. Shown with Schlage Accent Lever in Satin Nickel.

Single Hinged Garden Patio Doors

One Door Active | One Door Fixed
Ideal for accommodating multiple
doors – creating a spectacular view

Maximum View & Full Sunlight

One door is fixed while the other opens as an active door. Fixed doors create the illusion of a full lite sidelite, allowing additional sunlight in to fill your room and provide a full view of the outdoors. Select your configuration; inswing or outswing, left or right handed. Additional fixed panels can be added, to a maximum of four. Please contact your sales representative for details.

Inswing - 6/8 or 8/0 Option

Left Hand Inswing

Right Hand Inswing

Left Hand Outswing

Right Hand Outswing

Optional: Multi-Point Hardware

PanoLock+ is a one-of-kind multi-point lock that works with most off-the-shelf lock hardware, supports a forgiving installation, and offers lasting performance, all at an affordable price point. Including electronic deadbolts.

Single-hinged Garden Patio Doors with Frosted glass,
right hand outswing, pre-finished in Colony.

Double Hinged

Garden Patio Doors

One Door Active | One Door Inactive

Full clearance double door system – provides the beauty of a garden patio door with full access to the outdoors

Secure Performance For Your Door System

Complete with multipoint astragal, this product allows the inactive door to be securely locked and sealed, or active as required. Active door must be double drilled. Select your configuration; inswing or outswing, left or right handed. Steel or smooth white fiberglass systems will have a white astragal, textured woodgrain will have a bronze astragal.

NOTE: Astragals will not accept paint or stain

Inswing - 6/8 or 8/0 Option

Active | Inactive

Inactive | Active

Outswing - 6/8 or 8/0 Option

Active | Inactive

Inactive | Active

Multi-Point Astragal

for Madero Garden Patio

The Endura multi-point astragal is used on all active-inactive Madero Garden Patio systems. Multi-point functionality is built right into the astragal, working with standard deadbolts for ultimate cost efficiency. Two locking points automatically engage when the door is locked to fight deflection. Astragal boot lifts clear of the sill when operating the inactive door panel, preventing rubbing, wear or damage. A built in flip lever locks and unlocks for enhanced accessibility.

How the Multi-Point Astragal Works:

Engaging a standard deadbolt activates built-in locking mechanism.

Built-in Lock Pawls engage with keepers in the active door.

Flip Lever locks and unlocks the astragal in one easy motion.

Flush Bolt and Floating Boot lift clear of the sill for damage free operation.

Garden Venting

Garden Patio Doors

One Door Active | One Door Venting

Designed to provide easy access to outdoor living spaces – as well as ventilation and natural light.

Let In A Burst of Fresh Air

Garden venting doors feature the active door as a typical swing door (outswing only) with optional sash lock. Product comes complete with standard screen mounted to the inside of the venting door, roto hardware, and sash locks with tie bar. Select left or right handed configuration and specify single or double drill. Steel and smooth white fiberglass default hardware is white (unless specified), textured woodgrain default hardware is bronze (unless specified).

Clips open for access to exterior of window for easier cleaning

Screen & Roto Truth Hardware allow the venting side to open for maximum air circulation

Sash Locks & Tie Bar Locking System provide both extra security, and a weatherseal fit

Outswing - 6/8 only

Left Hand Outswing

Right Hand Outswing

* Rectangular transoms are available for all units, with clear dual Low-E or 5 lite internal white grille option

Fiberglass

Door Slabs

Neulite Flush Glazed SG10 | WG12

With simple and aesthetically clean glass beadings, Neulite Flush Glazed doors are designed to complement today's contemporary home decors. The smooth white shaker-style beading allows for a 1" standard glass thickness and all standard size glass inserts, whether decorative, privacy, textured or completely clear. They can be used as an elegant front entrance or an escape to a backyard garden oasis.

Smooth White Neulite Detail

Fiberglass | Steel

Door Slabs

Flush Doors with Insert SG00 | WG00 | ED00

The 24 gauge steel, and the fiberglass slab is cut out in manufacturing to accept the Evolve® insert with glass. The high performance Evolve® frame material provides superior rigidity and eliminates bothersome squeeze-out through the use of a compression foam tape seal. This latest innovation reduces scalloping, corner flare, and warping. The Evolve® HP frame does not require finishing, but can be painted to match your door colour.

Evolve® High Performance Frame

Door Slabs

Fiberglass

25 YEAR
Limited
Manufacturer's
Warranty

**BUILT FOR THE
Canadian Climate**

Exceptional Security

Our full length steel reinforced wood lock block offers exceptional security while allowing a range of hardware mounting options.

Energy Efficiency

Filled with an insulating core of 100% CFC-free polyurethane foam, providing an excellent R rating, while bonding the two door skins together.

Performance

Rigid structure prevents bowing and warping in extreme temperatures. The fiberglass skins are resistant to dents, dings, splintering, and corrosion. They are very easy to keep clean.

Completely Waterproof

Our full length composite stiles and rails provide complete waterproofing for the door's insulation. The composite materials will not splinter or delaminate and boasts twice the screw holding capacity of wood-edge doors.

Steel Slabs

Novatech

10 YEAR
Limited
Manufacturer's
Warranty

A popular choice for Canadian home buyers, our 24 gauge steel doors feature triple shadowed panel embossments for greater detail. The white N600 Polytex finish carries a 10 year warranty, with the smooth, ready to paint finish ready to accept the paint color of your choosing.

The door is cut out to accept door glass

Durability

Door skins interlock with the stile, providing additional support to reduce delamination and stretching.

Strength and Security

16" wood lock block provides strength and security while accommodating double bore lockset/deadbolt.

Energy Efficient

Filled with an insulating core of 100% CFC-free polyurethane foam, providing better energy ratings than a standard styrene core product.

Pre-Finishing Options

Smooth white pre-pigmented fiberglass doors have a warm white finish to match the composite frame and require no painting. The doors will accept an array of paint colours to match the decor of your home.

Woodgrain textured fiberglass doors have a realistic rich appearance requiring paint or stain.

Steel doors are supplied with a N600 Polytex finish, requiring no additional paint to achieve a 10 year limited warranty. Polytex white is cool white while Madero's composite frames are warm white. To achieve a uniform appearance, painting will be required.

Door Frame Specifications

Brickmould Options

5/8" Slimline Aluminum

5/8" Slimline aluminum brickmould comes standard with an integral nailing fin and is versatile for both renovation and new construction.

Black

Pure White

#180 Step

Standard option is wood or composite #180 step brickmould. Snaplock nailing fin is added on all composite units.

SnapLock Nailing Fin (Composite only)

Incorporating a hinge-style design, Madero's SnapLock nailing fin snaps into place for new home construction or can be scored and trimmed if not required.

Jamb Options

Madero Artisan door frame systems are constructed of wood or composite jamb - smooth white or textured. Available in jamb depth of 4-9/16", 6-9/16", 8-9/16" or custom.

Aluminum Jamb Cladding

Cladding in black or white is available to exterior or jamb surface - inswing units only.

Wood

Kiln dried, primed finger-joint pine—double primed for quality performance and ease of painting. Wood frame requires paint on all exposed surfaces within 45 days of purchase.

Composite

- Woodgrain textured or pre-pigmented smooth white frame components are a blend of PVC and wood fiber composite substrate.
- Composite will not discolour, absorb moisture, splinter or rot.
- Smooth white composite does not require paint while woodgrain composite is supplied in its raw almond finish, requiring paint or stain to achieve a realistic, rich appearance.
- Limited life time warranty.

Door Frame Specifications

Z-Series Inswing Articulating Sill® and Sealing System

- **Superior Performance**
Z-AC cap sill never needs adjustment, automatically adjusting for a lasting seal against leak and air infiltration.
- **Sealing System**
Gaskets are provided to give an additional seal and to eliminate caulking. Matching corner pads are factory installed to seal out air and moisture. Compression weatherstrip seals tight when the door is closed and expands when open. The Z-AC door bottom is adhered to the door forming a tight seal every time.
- **Additional Protection**
Sills are provided with sill and cap covers to prevent damage during installation.

CERTIFIED & TESTED

To meet the stringent NAFS requirements for doors in a new home construction, all Endura door components are certified and tested.

Z-AC Door Bottom

The Z-AC Door Bottom delivers enhanced protection against air and water infiltration, forming a tight seal every time. Z-AC Door Bottoms seal without caulk for easy assembly and lasting performance.

Simple Solutions® Corner Pad Weatherstripping

The Simple Solution Corner Pad seals out air and moisture. Compression weatherstrip seals tight when the door is closed and expands when opened, providing a long-lasting weather tight solution.

Z-Series Inswing Articulating Sill®

Madero Artisan door systems are provided with black caps and black anodized sill decks.

Z-Series Outswing Bumper Sill®

Madero Artisan door systems are provided with black caps and black anodized sill decks.

Clear

Low-E glass is made with an invisible thin metallic coating that blocks heat flow.

A proven energy saver, Low-E glass reduces air conditioning costs by reducing solar transmissions in the summer. In the winter, it reduces heat loss to the outside and allows solar energy to pass inside.

It also reduces fading of carpet and furniture.

Allows solar energy in

Blocks ultraviolet rays

Clear Low-E

A perfect choice for the unobstructed view of your outdoor spaces.

Clear Triple Low-E

Adding a second Low-E pane to your door for triple glazing will boost its energy efficiency.

The argon gas in your glazing reduces heat transfer by convection and improves energy efficiency.

Grilles Between Glass

Internal 5/8" grilles provide the beauty of a true divided light with ease of cleaning. Low-E glass to maximize energy efficiency

Streamline the colour matching process for your project by selecting from Madero's popular colour choices.

Steel doors are supplied with a polytex finish. Painting is not required, however, the door will accept an array of paint colours to match your home.

Smooth white fiberglass doors are supplied in natural pre-pigmented warm white finish. Painting is not required, however, the door will accept an array of paint colours to match your home.

Woodgrain fiberglass doors are supplied with factory almond finish, requiring paint or stain.

For dark coloured finishes, heat reflective paint is required to achieve a full warranty.

Printed swatch colours may vary slightly from actual product. If you are concerned about exact colour match, we recommend you first request a product sample for accuracy.

Option to paint one side is available. Specify at time of ordering. Split finish option also available.
