# Building Value Into Building Products® for Over 75 Years!

ODL is the worldwide leader in doorglass and privacy solutions for residential entryways. We celebrated our 75<sup>th</sup> anniversary in 2020. When Cy Mulder opened a small woodworking shop at our inception, he did so with the intention of creating products that truly make your life better. This belief remains our guiding principle under today's 3rd generation of ODL family ownership.

We recently added **Salix** and **Affluent**. These contemporary doorglass designs are inspired by nature's rhythm of free-flowing water and the outdoors. We are excited to be adding two new decorative doorglass designs in 2021. **Ditto** is a simple silkscreen design that offers affordable high privacy. **Mistify**, a unique combination of pattern and texture, is available as a 1-light and with black grilles between glass.

From the creation of the first doorlight on record in the early 1950s to the launch of the versatile and innovative ZEEL® frame in 2019, ODL takes great pride in leading the industry in design and innovation—and in doing so with service and quality at the forefront.

We Make Your Life Better™ is not just our purpose, but our unending commitment to you.

# We Know Doorglass

## This is what ODL does.

That experience is evident in the quality of handcrafted glass, cut and shaped in a range of styles to match a diversity of homeowner's design preferences across the country. ODL's experience is also reflected in the quality of doorglass construction: two panels of tempered safety glass, insulated for air- and water-tight performance. When you look at any one of our decorative doorglass products, you see a cohesive design, but many individual elements come together to create that design.

## Light & Privacy Levels

Each doorglass design varies in the amount of light it transfers and privacy it affords. We assign a numerical privacy level to each doorglass, from a 0 for low-privacy transparent glass to a 10 for high-privacy opaque glass.

Privacy Level = 8

## Price Group

Homeowners can also select decorative doorglass in a price range that suits their budget. Three levels, from the higher range Group \$\$\$ to the lower range Group \$, are offered based on doorglass design and materials.

### Low-E + Argon

Contains Low-E Glass + Argon Gas, the highest insulating glass standard.

### Low-E Doorglass

Available with a hard coat finish.

### Low-E + Doorglass

Available with a soft coat finish.

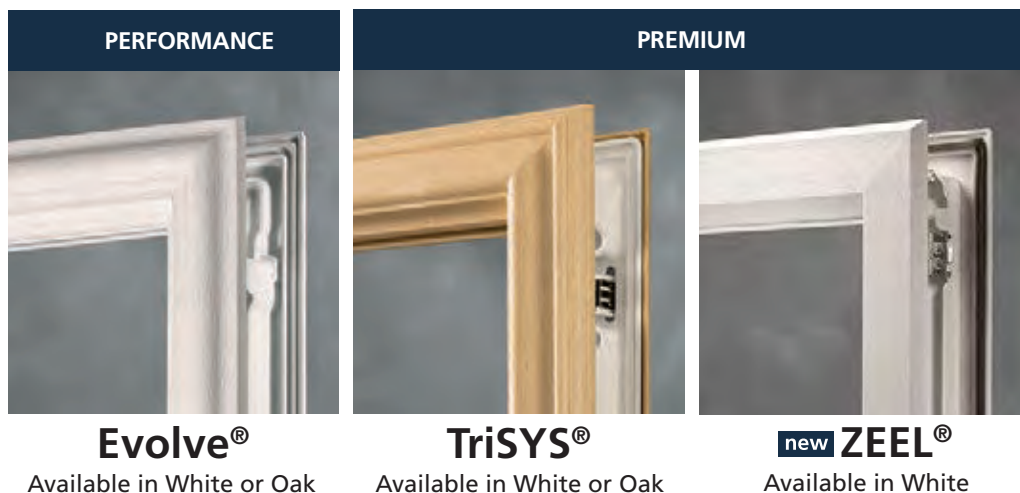

### ENERGY STAR®

Helps meet ENERGY STAR® requirements when used with an ENERGY STAR® qualified door or sidelight.

## Doorglass Frames

We offer the widest array of doorglass frame styles, colours, and materials in the industry to meet specific needs.

# Reframing Innovation and Design

We explore design trends, listen to customer needs and expectations, and use our long history of innovation to bring you **the most versatile doorglass frame ever.**

Go to [zeel.odl.com/can-en](https://zeel.odl.com/can-en) to learn more

# Meet ZEEL®

## A minimal design with endless opportunities.

ZEEL is a sleek, versatile frame designed to be stained or painted that blends seamlessly into the entry door, allowing the doorglass to take center stage. This **clean, low-profile look** offers an alternative to flush glazed doors that provides the benefits of a frame system with the style homeowners desire.

Traditional frames can warp when subject to severe temperature changes or direct sunlight exposure, especially when painted dark colours. **FiberMate Plus™** is our **strongest material yet** and exceeds performance expectations in extreme environments.

**Resolve® sealant is immune to squeeze out** and doesn't degrade over time, reducing service calls and warranty issues. This clean thermoset foam seal can be repositioned and stays consistent over time.

**ZEEL eliminates the need for screws** and cumbersome screw hole covers with an innovative clip system. This allows each frame to sit flush, streamlining installation and greatly reducing installation time and effort. This efficient installation offers an alternative to costly flush glazed doors.

## Available Sizes

22 x 17	22 x 36	22 x 48
		

20 x 64	22 x 64	22 x 80
		

8 x 36	7 x 64	8 x 80
		

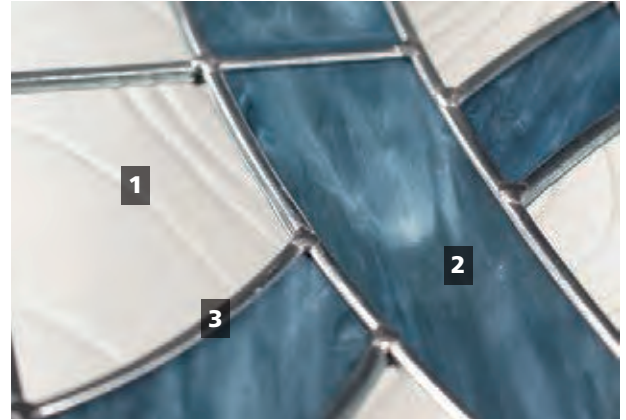

# Affluent

## Contemporary Style

Bring the perfect balance of grace and tranquility to your front door. The organic strokes of blue in Affluent reflect a river's many tributaries and the abundance of free-flowing water. Steel Blue Swirl glass introduces subtle colour that is complemented by the fluid lines of Baroque glass, mimicking nature's rhythm.

- 1 Baroque Glass
- 2 Steel Blue Swirl Glass

# Avant

## Old World Style

True to its definition, Avant is a stylistically forward doorglass choice, yet it balances characteristics of European architecture and Old World styling. A black chrome finish softly curves throughout a textured glass surface accented with clear bevel clustres. Avant offers a medium level of privacy.

- 1 Clear Bevels
- 2 Eaton Glass

# Chinchilla

## Textured Doorglass

As touchable at its namesake, Chinchilla's fine lines and organic, fur-like texture create a striking wave pattern when seen from afar. It offers a high level of privacy to your home.

Textured surface exposed to the inside of the home.

# Micro-Granite

## Textured Doorglass

Just as its name implies, Micro-Granite blends texture and pattern to create a surface reminiscent of small textured polished pebbles. It provides a high level of privacy.

Textured surface enclosed in glass.

# Rain

## Textured Doorglass

All that's missing is the patter of raindrops. Rain features a vertical pattern and textured surface that create the illusion of rain trickling down a window. It offers a high level of privacy.

Textured surface enclosed in glass.

Privacy Level

Note: These sizes are offered in Craftsman frames which have a flat profile that is different from traditional profile frames. Please note this when matching with sidelights.

# Streamed

## Textured Doorglass

The pronounced vertical pattern and strong ribbed texture of Streamed creates the illusion of the organic flow of water in your entryway. Offers a high level of privacy.

## Heighten the Performance

Spotlights is constructed with performance features that style-savvy homeowners look for. Spotlights' FiberMate® molded and textured frame works equally well for painting or staining. FiberMate's material formulation outperforms lesser quality frames: the frame's construction resists both warping and deformation from heat buildup and can be used with dark finishes.

Spotlights' compression foam tape seal construction eliminates the oozing and sticky mess of wet caulk products. The frame seal's design is also engineered to extend the life of your door frame. If damaged doorglass needs to be replaced, you can do so without having to replace the frame as well. The modern Spotlights frame with compression foam tape seal is removed from the door, damaged glass repaired or replaced, and the frame reinstalled. Insulated glass and a well-constructed frame unit make Spotlights energy efficient.

Seated screw hole covers allow for easy alignment and match the frame's grain direction, resulting in a uniform, finished aesthetic.

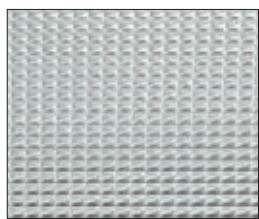

## Endless Combinations

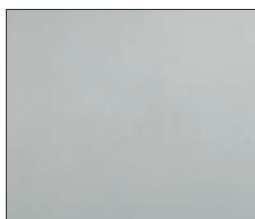

## Keep It Real

Spotlights are true to the character of your home's aesthetics. Chinchilla, Circuit, Clear, Clear Low-E, Cubed, Frosted and Rain glass and an architecturally authentic modern frame profile create the minimalist aesthetic and functional attributes you're wanting in your home.

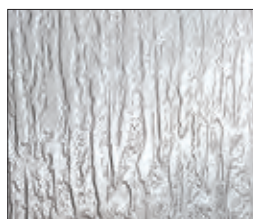

The textured grain in Spotlights' frames is reminiscent of classic mid-century maple and birch furniture. The uniform and subtle grain provides a perfect surface for paint or stain.

## THE BEST-SELLING BLINDS BETWEEN GLASS

### Now available for Entry Doors

Blink® Entry Doorglass brings an updated look, feel and finish to your entryway while keeping the same benefits of maintenance-free light and privacy control of enclosed blinds. This latest design combines easy operating effort and long-lasting reliability that continues our 20-year history of building the best-selling blinds between glass in the industry.

## Light and Privacy Control

Whether you're looking to enjoy the outdoors or need to turn off the outside world, the perfect levels of light and privacy are yours to control. Our superior **Easy Glide System** allows our blinds to tilt completely closed, keeping you safe from prying eyes and unwanted light. The full privacy channels eliminate light gaps, shadows, and sunlight glare.

## Easy to Operate

The levels of light and privacy in your home are yours to control using our **Easy Glide Operator** which slides along the **Ergo Track** using **Sure Connect Magnets**. The ergonomically placed operator lets you raise, lower and tilt your blinds the entire length of the doorglass with only the slightest movement. No reaching or stooping is needed to adjust the blinds. An innovative design results in stacked blinds that take up the smallest of space at the top of the doorglass when fully opened.

## Low Maintenance

Since our blinds are enclosed between two panels of glass, you never need to dust which decreases allergens in your home. Even with repeated use, our enclosed blinds retain their new look—unlike exposed blinds that can become bent or tangled over time. Blink Entry Doorglass carries a 20-year warranty on blinds, glass seal and operator for a long-term performance in your exterior door.

## Safety

Blink is leading the industry in enclosed blinds that reduce the safety risk for children and pets. With no dangling cords, our blinds have received two certifications from the Window Covering Manufacturers Association and Parents for Window Blind Safety. Both organizations strongly urge parents to use window coverings without accessible cords in homes with children. In addition, all our enclosed blinds are offered in tempered safety glass.

## Attention to Detail

We prioritized style and design by offering six colours and paid attention to aesthetic details, such as covering the cords with a bottom rail and matching all the visible components so the colours of your entry door blinds will always coordinate with your décor. Choose from an **Evolve®** or **ZEEL®** doorglass frame\* to complement your home's architecture, whatever the style.

Triple-Glazed Enclosed Blinds

## Triple-Glazed Enclosed Blinds

### With Grilles Between Glass

The triple-glazed design suppresses traffic sounds and other unwelcome noises with a STC rating value of 34\*. Triple-glazed design also reduces heat transmission by up to 28%. All triple-glazed doorglass is offered with a Low-E glass option.

*\*STC = Sound Transmission Coefficient.*

See [www.odl.com/stc](http://www.odl.com/stc) for more information.

**Raise, Lower & Tilt—No Dusting!**

Ergonomic design principles place fingertip control within easy reach. Side operator raises, lowers, and tilts the blind.

Blinds completely disappear into top valance when fully raised.

## Triple Glazed Doorglass Blinds

White

### Privacy and Light Control

With the blinds lowered, you control the amount of privacy and light coming into your home. With the blinds raised, you feature your grille door style. Looks and function with none of the cleaning and banging associated with traditional blinds. That's a triple win!

- Side operator raises, lowers, and tilts the blind.
- Triple-glazed design reduces heat transmission by up to 28%.
- Some of the triple-glazed doorglass blinds achieve the thermal requirements of ENERGY STAR®, provided they are installed in an ENERGY STAR® certified door or sidelight.
- 20 YEAR GLASS SEAL WARRANTY
- Available in white 11/16" contoured grille.

### Energy Efficient

Glass + grille + glass + blind + glass = energy efficient, sound dampening, privacy and light control, and the charm of contoured door grilles.

Contoured Grilles Between Glass

## Grilles Between Glass

### Contoured Grille - 11/16" (CGBG)

The slight contour of these grilles creates an appearance of depth in your door or sidelight. Contoured grilles are a great option for French-style patio doors, too. Grilles can also be customized to create exactly the look you desire.
